

SAFETY ON YOUR GRIP

F437 SAFETY GLOVES

Welding gloves made from dyed red split leather, featuring a 15 cm red split leather cuff for arm protection. The palm is lined with soft cotton fleece for enhanced comfort, while the cuff is lined with durable canvas for added strength. Heat resistant up to 100°C for 15 seconds, making them suitable for general welding and metal handling applications.

BUILT FOR TOUGH ENVIRONMENTS

Industry application:

- Welding Operations
- Hot Metal Handling
- Metal Sheet Processing
- MIG & TIG Welding
- Light Fabrication Work
